MASTER CATALOGUE

CONFIDENTIAL

COMPOST is Nature's natural organic soil supplement. It improves soil quality by reducing the need for chemical fertilizers, helps control erosion, conserves water and improves air quality by mitigating the production of methane gas in landfills. The production and application of compost supports local jobs and the restoration of local food production.

EcoSafe® manufactures compostable film products intended to replace conventional plastics in the compost production value chain and we also design technology based zero waste solutions.

Our EcoSafe Zero™ recycling APP provides waste-generators in the residential, commercial and institutional sectors with turn-key solutions for the separation and diversion of contamination-free organic waste and recyclables from landfill using our high-quality products purchased from our distribution partners.

FOOD SERVICES

Residential · Commercial · Institutional · Food Services · Maintenance · Events

Our turn-key solutions and illustrated posters make training, re-training and daily management of the programs as *Easy as 1-2-3*.

About the EcoSafe® Food Service System:

- ✓ EcoSafe® Compostable bags are tough with leak-proof star seals that help keep prep stations and public areas clean and odor free
- ✓ "Composter Approved" by the Compost Manufacturers Alliance and Certified to meet ASTM D6400 Standards
- ✓ EcoSafe stocks a full range of sizes
- ✓ Made with extra strong leak-proof star seals
- ✓ The "Right-fit" ... for most bins and carts sold in North America
- ✓ Cross reference tables available on request
- ✓ Our proprietary Food Service Dispenser makes bin maintenance easy and convenient saving time and money with the right bags in every bin
- ✓ Our online customer support center offers a Quick Start Guide that provides instructions and poster graphics for prep stations and public collection areas.

“Easy as 1-2-3” - the EcoSafe MultiRes[®] System

The EcoSafe MultiRes[®] System:

1. Makes it easy, safe and clean for Residents to participate
2. Addresses the challenges faced by Residents when required to collect food scraps that can quickly become a smelly yucky mess in the kitchen bin or Compost cart
3. Clearly identifies the “yes” and “no” items both graphically and in detailed lists
4. Provides immediate feedback to Residents on “how they are doing”
5. Fosters a sense of accomplishment and community pride in their building

Takes the **YUCK**[™]
out of composting!

“EcoSafe~MultiRes[®] is a proven and patented System that engages Residents, increases participation and satisfaction levels while reducing contamination to near zero”

1

- ✓ **Convenient...** located on-site and stocked with approved EcoSafe~6400[®] Compostable liners
- ✓ **No more confusion...** providing only approved EcoSafe~6400 bags the biggest source of contamination is removed... grocery t-shirt bags
- ✓ **Savings...** bags are purchased at wholesale prices

2

- ✓ **Cleaner...** compostable liners contain the “Yuck” factor and support a cleaner healthy environment in the kitchen.
- ✓ **Easier...** collecting food scraps in compostable bags that when full can be tied-off to mitigate odor and insect infestation.

3

- ✓ **Safer...** EcoSafe[®] liners are strong, leak proof and support the safe transport of filled bags to a lined Compost cart.
- ✓ **Cleaner...** no need to wash food-soiled smelly insect infested bins or carts as the carts are also lined to further contain and control the yuck

Ecosafe® Green Fundraising

MAKING A MEANINGFUL DIFFERENCE

Take the **YUCK** out of composting!

ECOSAFE®
ZERO WASTE
www.ecosafe.green

ECOSAFE~6400®

COMPOSTABLE BAGS

Bags with a purpose...

Supporting local youth & Environmental education!

- ✓ EcoSafe liners control the "Yuck" while reducing odors and insect infestation
- ✓ Using compostable bags has proven to increase household participation
- ✓ Food scraps make **Organic Compost** for local farmers and home gardeners
- ✓ Compost is **Natures natural fertilizer** ~ it conserves water while capturing and storing Carbon to help mitigate climate change
- ✓ And, as a bonus... it's great for growing nutrient rich organic fruits & vegetables without the use of chemical fertilizers!

The EcoSafe Green Fund Raising program supports funding for local youth while raising their communities awareness of the benefits of Compost!

2.5 GAL BAGS

3 packs of 30 bags (16" x 17") **\$20**

13 GAL BAGS

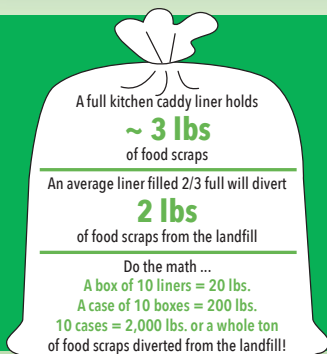

3 packs of 12 bags (24" x 32") **\$20**

DOGGIE BAGS

Econo Pack 120 bags (8" x 13") **\$20**

See how an EcoSafe® Green Fundraiser can impact your community and global climate change!

Type in the numbers of families.

1000

CALCULATE THE IMPACT

Emissions ?

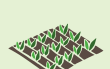

176,761 Miles
or 284,470 Km
of driving emissions
avoided per year

Food Waste

260,009 Lb
per year

Agriculture ?

5,709 square yards
of farmland covered
with compost

An average family creates 5 LBS. of food scraps a week...
Challenge 10 friends, neighbors or family to support our mission to *make a meaningful difference!*
With just 1,000 families we collect more than 1/4 million lbs. of food scraps!

ECOSAFE®
ZERO WASTE
www.ecosafe.green

EcoSafe is committed to supporting local youth and environmental initiatives. EcoSafe contributes \$.25 for every purchase of 3 - Rolls of Kitchen Bags to **Kiss the Ground** to advance Composting, Regenerative Agriculture and all natural local farming.

Participate in a prelaunch trial!
See back for details

ECOSAFE GARDENSAK™

FABRIC YARD WASTE BAGS

Puncture Resistant - Zipper Resistant - All Weather Performance

**EcoSafe is proud to introduce the World's first
100% Plant Based Garden Sak™!
Exceptional performance "Garden to Curb."
Rapidly composts in commercial systems.**

We invite Composters, Haulers and Cities to join with us in planning prelaunch Trial Programs as we build production capacity. Through 2019, programs will be limited to match our growing production capacity based on Trial forecasts.

To plan a Garden Sak™ Trial, contact your EcoSafe Representative.

To control production and supply we require a trial plan and forecast for case quantity requirements by quarter.

- Retail cases contain 18 packages of 4 bags.
- Contractor packs are bulk packages of 48 XL bags.

Initial trials will be limited to Contractor bulk packs only.

ZERO WASTE PROGRAMS DESIGNED TO DRIVE DIVERSION

Across N. America, EcoSafe is partnering with schools to educate and engage students with zero waste practices in a fun and entertaining manner. The EcoSafe EDU™ program is a cartoon character based program that speaks to the kids on the importance of zero waste and how to create a zero waste school utilizing the EDU™ program tools.

Programs Components:

1. Education and Outreach

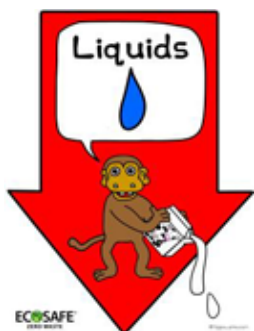

- **EDU Videos for students**, including a cafeteria training and Climate Change cartoons that share the HOW's and WHY's of Zero Waste.
- **Start-up guides** that identify program teams, goal setting, and overall program set-up.
- **Best Practice Guides** that highlight school successes and beneficial practices.

2. Program Tools

- **Container Signs** customized with our characters
- **Universal Sign Holders** designed to attach to all containers
- **Container Wraps** that "dress-up" existing school containers
- **Table tents, EDU place mats, and EcoStation guiding arrows** all play a role with our cafeteria training video

*"The EcoSafe program has immediately reduced the amount of trips I was making to and from the dumpsters during lunchtime." - Beulah Payne
Elementary Custodian Kenny Murphy*

Making a Meaningful Difference...

For the environment through strong profitable partnerships that drive social change, using our innovative zero waste solutions and industry leading products.
